General

The STAR RF30 is a new and an attractive 12˝(30cm) read range Proximity Reader which can be used in various Industrial applications (Access Control, Factory Automation and etc.).

Any of OEM proprietary format is available and it supports Wiegand format as well as RS232, ABA Track II magstripe format, Addressable RS422 and TTL output.

These communications will allow you various applications in many industries.

The electronics reader parts in epoxy potting will ensure you its successful operations even in harsh environments(vandal proof) and indoor / outdoor (100% weather proof).

The elegant looking reader case is designed to match any interior decoration of ultramodern buildings.

Two color LED of green and red, inside digital buzzer sound will guarantee you an accurate system operation.
